PRESIDENT's (Cont'd)

This could be a Hibiscus explosion if we all work at it.

In conclusion let's get inspiration from Mrs. Baum's fine dream and help Rosalie Wylie in her efforts to gear in the nomenclature work on new varieties as we go along which can simplify this part of our activity a great deal.

TAGS

All Chapter presidents have been sent samples of inexpensive tags, both paper and aluminum, that can be used by hybridizers to label their various crosses. Many experienced hybridizers use these tags and have found them very satisfactory. Ask your president to show you the samples.

The paper tags are supplied in packages of 2500 for a price of $5.00 plus parcel post by Ajax Packaging & Plastics, Inc., 1881 N. W. Twentieth St., Miami, 33152. These tags come in several colors. Red is suggested for good visibility.

The aluminum tags are supplied in packages of 1000 at a price of $5.80 plus parcel post by Permatag, 91 N. Daisy St., Pasadena, Calif. Shipping weight 3 pounds.

The hybridizing committee suggests that each chapter buy a supply and distribute to members as needed.

Hostess: "Oh, are you looking for a drink?"
Mrs. Jones: "No, I'm looking for my husband."
